Flower Brooch
Skill Level: Beginner

Designed By
Jackie White

This project shows you how to dye fabric with Kool Aid! Make this adorable brooch and wear it in style. It will dress up a coat, blouse or even the front of your purse.

Materials Needed

3" x 6" squares of Legacy by Pellon® Bamboo batting
2" square Pellon® Wonder Under #805
2" square Pellon® Fusible Sheerweight Interfacing #905F
Kool Aid - pink, red and green unsweetened packets
Vinegar
3/4" pin clasp
Thread

Tools Needed

Iron
Needle

Instructions

Soak 3 pieces of batting in warm water for 20 minutes. In three separate pots, pour 1/2 cup vinegar, 1 cup water and 1 packet of Kool Aid mix. Stir to dissolve. Squeeze batting out and put into pot. Simmer over low heat for 20 minutes. Let cool, rinse repeatedly until water runs clear. Dry and iron.

Cut four 2" circles from the pink batting. Cut two 2" circles from the red batting.

Using two pink and two red circles, fold each into quarters. Stitch along the folded side to hold in place.

Cut one 2" circle from Pellon® Wonder Under and one 2" circle from the Pellon® Sheerweight interfacing. Fuse these, one each to the remaining 2" pink circles. With pink batting facing out fuse together to form the base for the flower.

Instructions

Using needle and thread, stitch the pin to the back of the base of pink circles. Cut two leaves out of the green batting, each 2" long. Place them on the front side of the base and stitch in place by hand. Add the petals on top, one at a time, stitching in place on the base.

Using leftover scraps of batting, cut 2 tiny circles for the center of the flower and hand sew in place.
