Get a start on your Christmas Cards. Using Pellon® Lutradur, these easy to make designs are fast and fun. This is a great project for parents and children to make together. The sample was made by eleven year old Charlene Allison. Purchased card has a 3 1/2" x 5 1/2" design area. Look for other designs coming soon.

Materials Needed (for one card)

5" square Lutradur® 100 gram Heavyweight**
5" square 805 Wonder-Under ®
Purchased blank greeting cards - Design fits on a 3 1/2" x 5 1/2" area
7-9 hot fix 5mm crystals (or glue on crystals)
Ribbon for bow
Craft glue
Fabrico Fabric Pens, pine green and forest green
Glitter Marker, red

Tools Needed

Hot Fix crystal applicator if using hot fix crystals

**Available from C&T publishing http://www.ctpub.com

Instructions

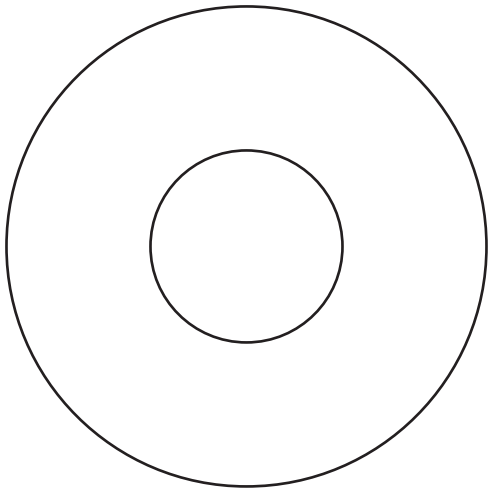

Decide if you are going to write the text by hand or print text on your ink jet printer. Do this before fusing design onto card. It is easier to reprint or redraw the text than to have to redo the wreath once made. If doing writing using your computer, follow instructions for your printer regarding smaller cards.

Trace pattern onto Lutradur. Place a blank sheet of paper under the Lutradur to catch any ink marks that might bleed through below. Color using the soft brush side of the Fabrico Pens. Go outside the circles of the pattern in a random stroke. Fill in the wreath pattern to taste. The magic of Lutradur will give the wreath a realistic appearance.

Let ink dry for a few minutes. Place inked Lutradur on the fusible side of the Wonder Under. Fuse together. The fusing process will also heat set your inks.

Cut out wreath on the outside edge only, leave the middle uncut. Follow the ragged edge you drew with the ink pens.

Peel paper side of Wonder Under off. Fuse wreath into place on the greeting card. Embellish wreath with hot fix crystals or glue on crystals. Glue on a bow.
