This is a great Halloween project for parents and children to create a trick or treat bag to hold all the goodies. Let your imagination fly while decorating the bag.

Fabrics Needed

Robot base	Fat Eighth
Decorations, feet, hands, eyes	Scraps of fabric

Materials Needed

725 Heavy Duty Wonder-Under®	1/2 yard

1 Large Paper Grocery Bag
Duct Tape
Black Spray Paint
Large Eyelets
Black Marker

Supplies Needed

Iron and Ironing Board
Hole Puncher

Instructions

Spray paint paper bag with color dark enough to cover any lettering that may be on the bag. Sample used black paint.

Fold top of bag to the inside 1 1/2".

Duct tape fold in place.

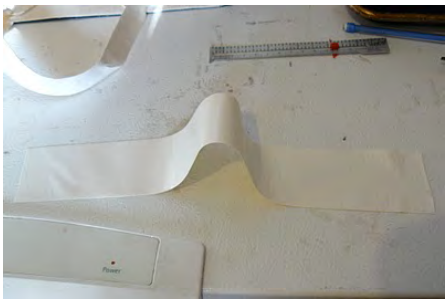

Place another layer of duct tape around inside of bag as shown.

Cut two strips of duct tape approximately 20" long. Lay them on a hard work surface to avoid pieces sticking together.

Fold in half lengthwise, leaving 1 1/2" open at the ends.

Press ends of the handle piece on the inside of the bag, approximately 2" in from edge of bag.

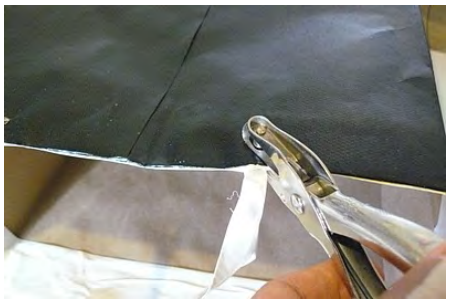

Place another strip of duct tape over the bottom of the handles. This will help keep the handle pieces secure.

Using a hole punch, punch holes below each handle, as far in as the whole punch will reach.

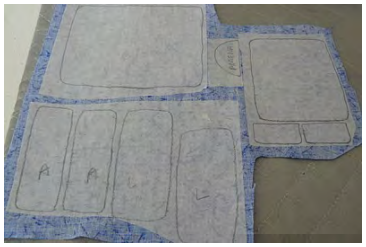

Place an eyelet on each hole following eyelet instructions on packet.

Trace all pattern templates onto the paper side of the Wonder-Under.

Fuse patterns onto the wrong side of the fabric pieces. Cut out pattern pieces. Peel paper off.

Fuse the pieces that go on the both and face following picture for placement. Mark eyes and mouth with a permanent marker.

Place all the pieces onto the paper bag. Cover with a pressing cloth and fuse into place. Do not leave iron on longer than necessary because the press cloth can stick to the paint.

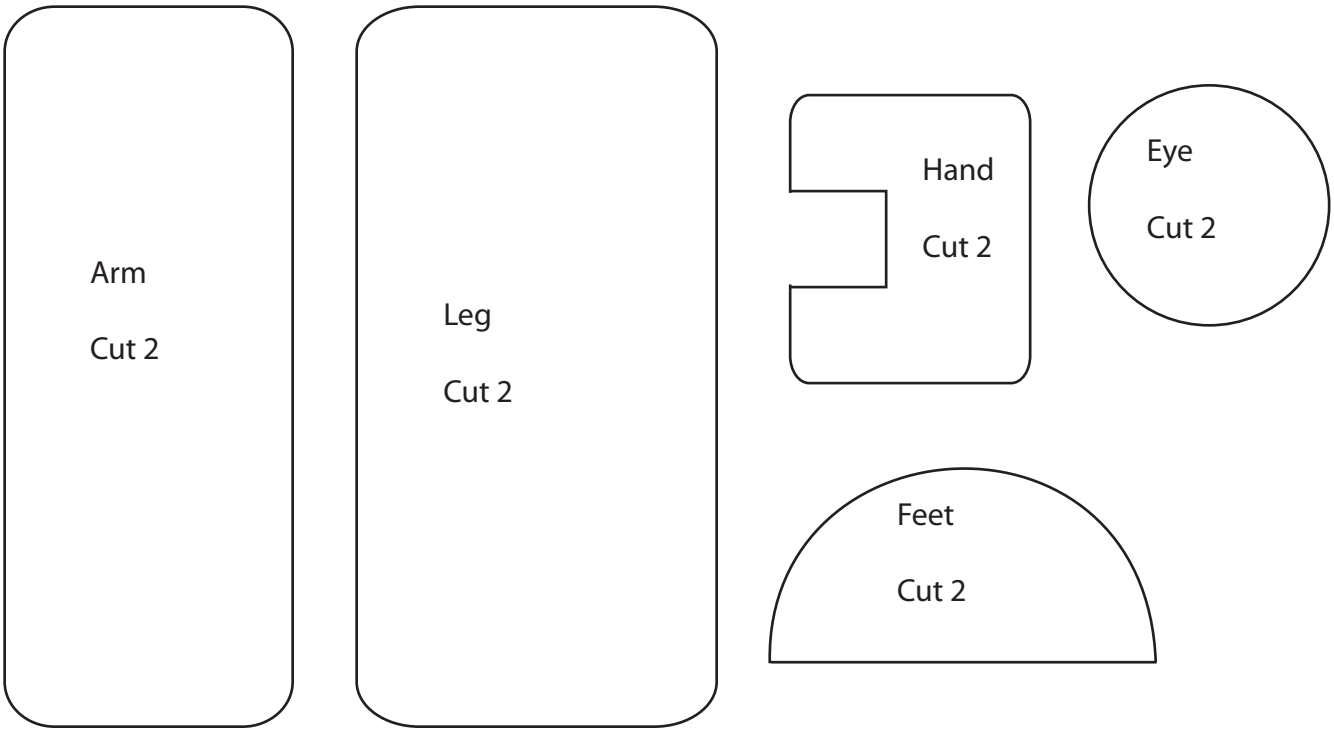

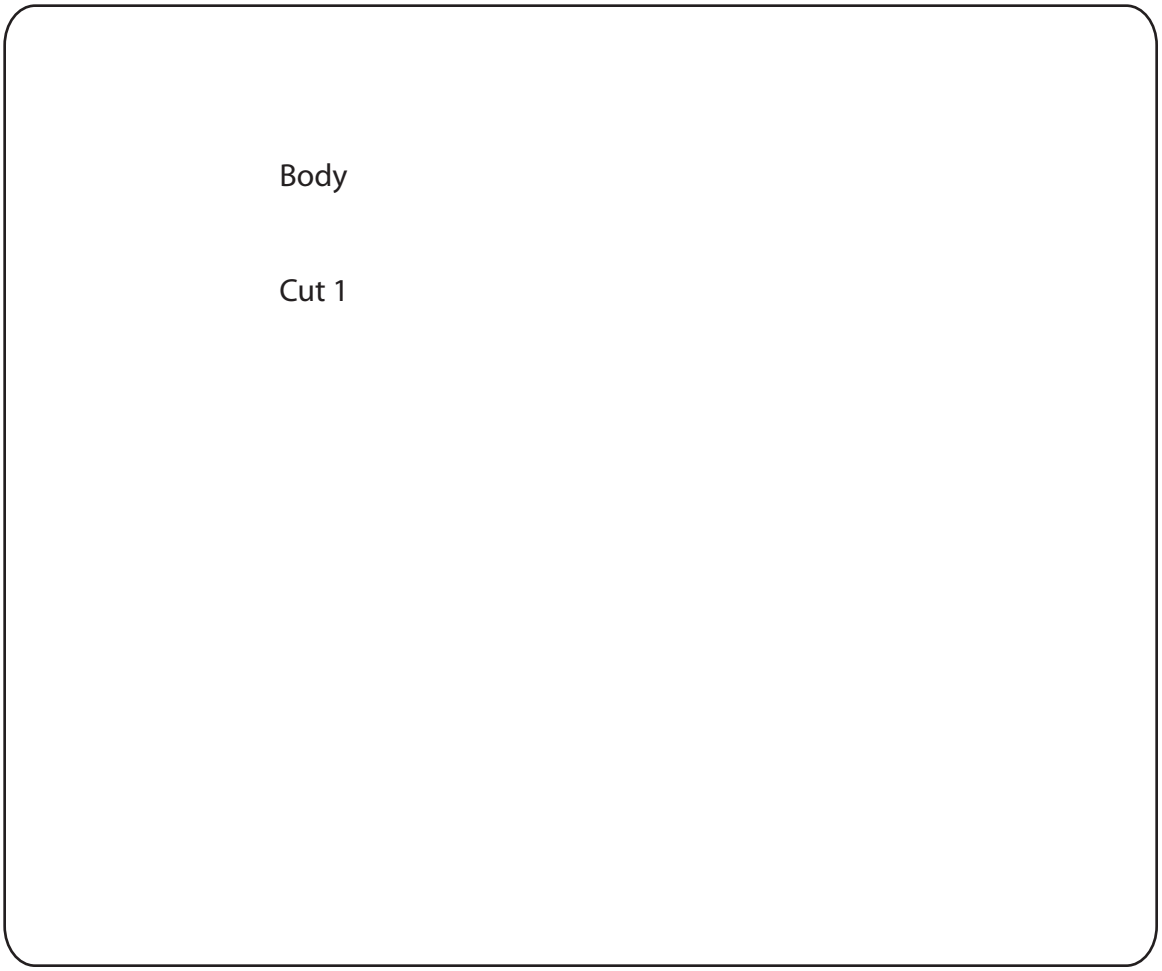

Embellish design as desired. Sample used buttons and rick rack.
