Cut the backing 17″ x 41″. Press. Place backing on table, right side down. Cut the Insul-Fleece™ and cotton batting the same size as the backing. Lay the Insul-Fleece™ on the backing first and smooth. Insul-fleece does not have a right or wrong side. Lay the cotton batting on top of that. Smooth carefully. Place the table runner on top of the cotton batting, right side up. Smooth and pin all layers together.

Quilt all layers together, either in the ditch or by meandering.

See binding instructions to make and attach binding.

TIP: Pellon® Insul-Fleece™ #975 contains polyester which will melt at about 400°. Always add a layer of 100% cotton batting whenever an item as hot as 400° could be placed next to the Insul-Fleece. The metallic mylar reflects and retains temperatures hot or cold. Do not use in a microwave.
